

This Redemption Statement has been produced for

INTERMET INSAAT TICARET LTD.STI.

by

ENERJISA TOROSLAR ELEKTRIK PERAKENDE SATIS AS

confirming the Redemption of

370.000000

I-REC Certificates, representing 370.000000 MWh of
electricity generated from renewable sources

This Statement relates to electricity consumption located at or in

Turkey

in respect of the reporting period

2024-10-01 to 2024-12-31

The stated Redemption Purpose is

Disclosure for Scope 2 Reporting

QR Code Verification

Redeemed Certificates

Production Device Details

Device	Country of Origin	Energy Source	Technology	Supported	Commissioning Date	Carbon (CO ₂ / MWh)
Eber BES	Turkey	Biomass Solid: Forestry by-products & waste	Steam turbine with condensation turbine (closed cycle): Non CHP	Yes	2019-10-26	Neutral

Redeemed Certificates

From Certificate ID	To Certificate ID	Number of Certificates	Offset Attributes	Period of Production	Issuer
0000-0218-3121-3209.000000	0000-0218-3121-3578.999999	370.000000	Incl	2023-01-09 - 2023-01-31	Foton

Auditor Notes

This statement is proof of the secure and unique redemption of the I-RECs stated above for the named beneficiary to be reported against consumption in the country during the reporting year stated. I-RECs are assigned to a beneficiary at redemption and cannot be further assigned to a third party. No other use of these I-RECs is valid under the I-REC Standard.

Where offset attributes are 'incl' the device registrant, who exclusively holds the environmental attribute rights, has undertaken never to release carbon offsets in association with these MWh; 'excl' means carbon offsets relating to these MWh may be traded independently at some point in the future.

Thermal plants emit carbon as part of the combustion process. While this is not zero carbon, it is generally recognised as carbon neutral where the source is recent biomass.
